MANAGEMENT AND LEADERSHIP SKILLS

Creator and manager Actitud Funcional Gym It is a project that started 6 years ago in Argentina Chaco and that works so far. I founded it with the help of my family and I was in charge of the work, administration and management of the teams of the different coaches who worked there. Although this job had nothing to do with programming, it gave me experience to lead teams, analyze the personality of each one of them to achieve a good work environment, good and optimal results, as well as find the best way for workers to feel valued and constantly growing. Currently the enterprise continues to function with the administration of my family.
